Dedicated to delivering desired results even with short deadlines. Proficient in front and back end development.

EXPERIENCE

Code Works
Software Development Student | 2018
- Developed 20+ projects in a 3 month time span reaching over 500 hours of coding experience.
- Regularly worked in a group setting to develop an accurate feeling and skills needed for working in dev teams.
- Implementation of Scrum methodologies to take applications to practical and functional endpoints.

Bode
Sample Development and Pattern Making Lead
2018-2020
- Managed an ever changing Pattern catalog based on season and production needs
- Along with the Studio Manager prescreened, interviewed, scheduled and brought on 20+ studio interns.
- Handled the in house alterations to patterns and garment construction of Runway Collection Samples, Made to Measure and One of One garments, often with tight 24-48 hr turn arounds.

APPLICATION

LendMe
A lending app for outdoor recreation equipment developed in a four person team. The app allows for users to list items to lend, browse other users listings based on category or by location using Google Maps, communicate with each other to establish terms for lending and leave reviews. Built with Vue front-end, Node.js back-end.

KanBan
A kanban task manager based for personal use. The app was created with a fellow developer. KanBan utilizes Vue front-end, Node.js back-end.
